About ixFintech

ixFintech Limited is a Hong Kong based Fintech company with mission to bridge the traditional finance and new digital finance in a secured and compliant way. As a former participant of the Cyberport Hong Kong Incubation Program, ixFintech graduated by launching the ixOption App in August 2018, aiming to improve financial literacy on derivatives and was awarded with the ETNet Fintech Award 2018. The app was also awarded with the "Top 10 Trading Solution Providers in APAC 2019" by CIO magazine in the USA. In October 2019, ixFintech was named as one of the "50 Innovative Companies to Watch" by The Silicon Review magazine in the US. Over the years, ixFintech strives to provide innovation on different Fintech

areas including cross boarder payment solution, blockchain technology, wealth management and trading platform etc. and gained market recognition from different awards. In January 2020, ixFintech was honoured to have received, for the second time, an award from ETNet Hong Kong on the Hong Kong Fintech Awards 2019 (wealth and investment section) for its ixCrypto Index Platform with the first crypto index in Hong Kong. During the same year, ixFintech was awarded the Silver Award in Innovative Tech of IFTA Fintech Achievement Awards 2019. In October 2020, ixFintech was awarded “Startup of the Year” in Hong Kong Fintech Impetus Awards by Metro Broadcast and KPMG on its new product- world first post-quantum-safe digital asset exchange machine (“DAEM”), that can facilitate cash transaction on cryptos and digital asset tokens. This year 2021, for the third time, ixFintech was awarded the ET Net Fintech Awards 2020 for its DAEM and ixCircle Platform - a start-ups/investors matching platform. In August 2021, ixFintech was awarded the Platinum award on Blockchain, Currency and CEP (Cryptoasset Exchange Providers) from IFTA Fintech Achievement Awards 2020.; the highest honour of the category. In November 2021, ixFintech won the TADS Awards 2021 under the Eco-System Excellence (KYC/Compliance) category.

About the DAEM and ixWallet

DAEM (Digital Asset Exchange Machine), a DeFi machine, is the first next generation ATM equipped with post quantum computing security. The machine enables the exchange between cash and digital assets (cryptocurrencies, real asset backed tokens, and security tokens) with KYC and 3 levels of security. ixFintech aims to build the best next generation digital asset financial framework, working together with its decentralized IX Wallet, targeted to facilitate exchange between traditional assets and digital assets via an ixPoint system. It will also support blockchain remittance to transfer payments globally in the future. The whole system is truly decentralized, meaning the savings of the customers are all on the blockchain but not in the machine. The machine is equipped with patented technology from our Canadian partner, IronCap. Every transaction here is tri-protected by network security, time-protected token (example OTP) and cryptography technology, which supercomputers cannot hack.
